RISK FACTORS

In this section, a number of risk factors are illustrated, both risks pertaining to TF Bank AB's (publ) (the "Issuer" and together with its direct and indirect subsidiaries and branches, the "Group"), the Group's market risks, business risks, legal and regulatory risks, financial risks and risks relating to the Bonds. The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Bonds in order to make an informed investment decision. Each of the risk factors set forth below describe risks which, in the meaning of Regulation (EU) 2017/1129, are material and specific to the Issuer and the Issuer's floating rate tier 2 bonds (the "Bonds").

The assessment of how the Issuer, the Group or the Bonds are affected by each risk factor is presented by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact. The materiality is presented on a qualitative scale as being "low", "medium" or "high". All risk factors described below have been assessed by the Issuer to be material and specific to the Issuer, the Group and the Bonds in the meaning of Regulation (EU) 2017/1129.

The most material risk factor in a category is presented first under that category, whereas subsequent risk factors in the same category are not purported to be ranked in order of materiality. Where a risk factor may be categorised in more than one category, such risk factor appears only once and in the most relevant category for such risk factor.

RISKS SPECIFIC AND MATERIAL TO THE ISSUER AND THE GROUP

Risks relating to business activities

Credit risk related to unsecured lending

Credit risk is the risk that debtors cause the Group a financial loss by not fulfilling its contractual obligations. The Group's business is carried out within three segments; Credit Cards, Ecommerce Solutions and Consumer Lending, and involves, to a significant extent, providing loans to the public. As per 30 September 2025, the Group's total loans to the public amounted to approximately SEK 22,797 million, whereof approximately SEK 9,310 million related to the business segment Consumer Lending, consisting of unsecured consumer loans, approximately SEK 2,537 million related to the business segment Ecommerce Solutions and approximately SEK 10,949 million related to the Group's main segment Credit Cards. As for the geographic exposure of the Group's lending to the public, approximately SEK 9,275 million was to customers in Germany, approximately SEK 4,535 million was to customers in Norway and approximately SEK 2,781 million was to customers in Finland, being the three largest markets for the Group's lending as of 30 September 2025. Consequently, credit risk is the most significant risk of the Group, being the risk that debtors fail to repay its debt in full or in a timely manner. In order to manage credit risks in the Group, the Group is dependent on its continuous monitoring of loans provided that the Group's credit policy and the work of the credit committee and credit division is apt to address credit risks from time to time. The Group is also dependent on its continuous monitoring of credit quality and as well as a robust and well-functioning credit approval process. In addition, the Group relies on its ability to classify loans for the purpose of assessing impairment of financial assets and suitable loan loss provisions. The Group regularly sells past due receivables in markets where the Board of Directors considers the price level to be favourable for the Group's performance and risk profile. As a result, the Group continuously aims to realise expected loan losses through the sale of such non-performing loans, thereby reducing credit risk.

Credit risks could materialise where current and potential debtors end up in a financial situation where they cannot pay amounts owed to the Group as they fall due, or otherwise abstain from fulfilling their obligations, and the Group is unable to sell non-performing loans at favourable terms or at all. Adverse changes in debtors' payment ability may, for instance, be the result of a general deterioration of the Swedish, European or global economic conditions, or arising from systematic risks in the financial system. Failure to pay debt obligations as they fall due

or at all may also be a result of a general financial downturn, which, in turn, could be due to macro-economic factors such as unemployment or over-indebtedness in society at large.

In the event of debtors' default, the Group has to take measures to collect the loans or sell such loans to debt collection companies, which is costly and could be unsuccessful. Should a large numbers of debtors simultaneously be unable to fulfil their obligations, or should debtors' financial situation deteriorate in such manner that credit quality expectations cannot be met, there is a risk of significant loss, especially where non-performing loans cannot be sold to debt collection companies on satisfactory terms or at all. There is also a risk of that a large number of defaulting loans would cause calculations of "Probability of Default", "Loss Given Default" and "Exposure at Default", based on historical outcomes, available customer information and macro data, to be misleading, resulting in that sufficient loan loss provisions are not made. Should any of the aforementioned risks materialise, it could have a material adverse effect on the Group's business and financial position, and could cause asset items in the Group's balance sheet to be non-indicative for a potential investor.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *high*.

Risks relating to disruptions in the global credit markets and economy

As a financial institution and lender with business in Sweden, Finland, Norway, Denmark, Estonia, Latvia, Lithuania, Poland, Germany, Austria, Spain, Ireland, the Netherlands and Italy through subsidiaries, branches or cross-border banking, the Group is subject to risks related to the global credit markets and economic development, since financial institutions, both in Sweden and globally, are dependent on the global credit market and economy being opulent, so that people are willing and able to take up loans.

Since the Group is subject to risks related to the global economy, it is affected by significant global events such as public disease epidemics or acts of war that may negatively affect the global economy. The outbreak and global spread of diseases or viruses or the emergence of new variants or mutations thereof resulting in global pandemics, and the consequential mitigating actions taken by governments to contain the spread of such diseases and/or viruses including business closures, travel restrictions, quarantines and cancellations or restrictions of gatherings and events, has historically, and could in the future have significant impact on the markets where the Group operates and could create volatility and disruption in the financial markets. To illustrate, the economic stresses induced by the COVID-19 pandemic led to the financial health of many businesses being impacted. Should any new macroeconomic events of similar magnitude, e.g. in relation to armed conflict, trade wars or the emergences of new global pandemics, it could have a material negative effect on the Group's operations, new lending and credit losses.

Further, unfavourable political, military, or diplomatic developments, such as secession movements and armed conflicts, including the ongoing situation in Eastern Europe following the Russian invasion of Ukraine, has led to, and may in the future lead to further, significantly increased geopolitical stress and uncertainty both in the European and global economy. This macroeconomic uncertainty has been further accentuated by the ongoing conflict in Gaza. Any escalation of current conflicts or the emergence of new ones could have similar effects on the broader market. The Group has no exposures towards Russia, Ukraine, Belarus or Israel. However, the Group is subject to risks related to disruptions in the global economy and is thus affected by conflicts that may negatively affect the global economy. The degree to which the situations in Eastern Europe and the Middle East will affect the global economy, and consequently the Group, is uncertain but poses a significant risk to its business operations and financial position.

The Group is also affected by negative trends in the global economic environment during 2024 and 2025 including, among others, the trade restrictions imposed by the United States, increased market volatility, increased interest rates, rising inflation and the increased risk of global recession. These factors affect the financial state of businesses and households globally, and it is expected to continue to do so for some time to come. A slowdown in economic growth or any deterioration in the respective economies of the local markets in which the Group operates may

have a negative impact on consumers' willingness and/or ability to consume and the demand for the Group's products and services, and could have an adverse effect on the Group's financial condition. For example, during 2024, German households were cautious, which has likely had a negative impact on TF Bank's growth. Despite a strong labour market and rising disposable income, many households chose to limit spending due to uncertainty about future economic conditions. In addition, customer's financial situation may be distressed resulting in a reduced ability to meet their payment obligations towards the Group.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risk relating to dependence of credit intermediaries and ecommerce merchants

The Group relies to a large extent on credit intermediaries and other third parties for the day-to-day operation of its consumer loan business, as a majority of all the loan distribution is carried out by credit intermediaries and other third parties. Further, about half of the deposit customers are conveyed via intermediaries such as Raisin and Check24. The majority of the new lending within the Consumer Lending and Credit Card business segments are performed digitally via loan intermediation. As for the Group's business within Ecommerce Solutions, the Group enters into agreements and partnerships with ecommerce merchants in order to supply such merchants' customers with the Group's payment solutions including several payment methods.

In order for the Group to market and sell its products as well as to retain its business reputation, the Group depends on the ability and willingness of credit intermediaries and ecommerce merchants to act as distributors and, in relation to payments service providers, technical intermediaries. If any such third party is unable to fulfil their obligations under the relevant partnership contract, such as ceases to distribute and deliver or fail to adequately advertise the Group's products, it would lead to decreased sales and reputational damage. Furthermore, should any material third party provider terminate its agreement with the Group and the Group be unable to replace such third party in a timely manner or at acceptable terms, it would impair and adversely affect the Group's ability to distribute its products. Should one or more of the aforementioned risks materialise, it could significantly disrupt the Group's business and have a material adverse effect on the Group's business results of operation, and in the long term, future prospects.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks relating to the divestment of Rediem Capital AB

On 20 December 2024, the Issuer completed the first phase of the divestment of its subsidiary Rediem Capital AB ("**Rediem**") by transferring 80.1 per cent of the shares in Rediem to Alektum Holding AB (publ) ("**Alektum Holding**") and Erik Selin Fastigheter Aktieföretag ("**Erik Selin Fastigheter**") for a preliminary purchase price of SEK 472 million. TF Bank currently retains a 19.9 per cent shareholding in Rediem which shall be transferred to Alektum Holding through an issue in kind in exchange for shares in Alektum Holding ("**Phase 2 Share Transfer**"). The completion of the Phase 2 Share Transfer is conditional upon Rediem qualifying as a specialised debt restructurer ("**SDR**") as well as a new regulatory approval from the Swedish Financial Supervisory Authority (the "**SFSA**") regarding ownership assessment. As at the date hereof the application for ownership assessment has been submitted to the SFSA and it is currently under review. Whereas the Issuer has no reason to believe that such approval will not be granted by the SFSA or that Rediem will not qualify as an SDR, there can be no assurance that such approvals and qualifications will be obtained within the expected timeframe or at all. If the Phase 2 Share Transfer, for any reason, cannot be completed, it could have an adverse effect on the Issuer's financial operations and strategic objectives.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise is *low*.

Risks relating to dependence of debt collectors and partners

As set out under risk factor “*Credit risk related to unsecured lending*” above, some of the Group’s issued loans that are due for payment without being paid by the debtor are, depending on geographical market, sold to debt collection companies. Hence, the extent to which the Group can control credit risk by way of realising expected loan loss depends on its ability to sell non-performing (stage 3) loans to debt collectors on favourable terms in the relevant geographical market where the loan is issued. Furthermore, if the debt collectors and/or partners with whom the Group collaborate cease to cooperate with the Group and the Group fails to replace such debt collector/partner in a timely manner and on favourable terms, it would adversely affect the ability to sell distressed loans, which could increase the Group’s exposure towards credit risk. Failure to dispose of non-performing loans would consequently adversely affect the Group’s financial position and future prospects. Whereas the majority of the Issuer’s due receivables in Stage 3 were divested in connection with the divestment of the Group’s previous subsidiary Rediem Capital, any future accumulation of stage 3 loans could have an adverse effect on the Group’s business, results of operation and financial position.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks related to consumers’ financial position and spending power

The Group’s largest segments are Consumer Lending and Credit Cards, which accounted for 41 per cent. and 48 per cent. respectively of the Group’s loans to the public, and 31 per cent. and 52 per cent. respectively of the Group’s operating income, as of 30 September 2025. Also the Ecommerce Solutions segment involves loans to the public. As such, the Group’s product portfolio is limited and there is a risk that the demand for a particular product the Group offers may decline due to a variety of factors, such as regulatory restrictions that decrease customer access to loan and ecommerce products, the availability of competing products or changes in customers’ preferences or individual customers’ financial conditions. Furthermore, there is a risk that financial crisis, general economic downturn, as well as increased inflation or rising unemployment levels could adversely affect the financial position and spending power of individuals that otherwise, typically, would be deemed creditworthy (See “*Risks relating to disruption in the global credit markets and economy*” above). Such adverse developments would likely cause the number of customers to decline. Furthermore, during such financially unfavourable circumstances, there is a risk that an increasing number of customers may end up in payment difficulties, and as of 30 September 2025, the Group’s reported net loan losses increased compared to the same period the previous years, mainly due to the growing loan portfolio in the credit cards segment. There is a risk that higher loan loss levels could impact the Group’s capital ratios and financial position if financially unfavourable conditions affect the Group’s customers over a prolonged period of time. Deteriorations in consumer confidence and spending power may also decrease the actual amounts that consumers are able or willing to deposit in savings deposit accounts held by the Group, which in turn would affect the Group’s liquidity, and in turn, its ability to provide its lending products. Should any of the above risks materialise, it could have a material adverse effect on the Group’s business, results of operation and financial position.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks relating to the assessment of customers’ creditworthiness

The ability to assess customers’ creditworthiness constitutes an integral part of Group’s lending operations, and the Group relies on its ability to correctly analyse and score customers’ creditworthiness via its proprietary IT systems (see also “*Data protection and privacy laws*”). Prior to issuing a loan, the Group makes an assessment of the customer’s creditworthiness, taking into account its financial position, past history and other factors. Customer-specific risk limits are determined on bases of internal and/or external credit assessments pursuant to general limits set by the board of directors. The customer on-boarding process is carried out online and the nature of the Group’s credit approval process means that the calculation method by which the Group determines a particular applicant’s

creditworthiness differs somewhat from the calculations made by other large financial institutions offering traditional consumer loans or other similar products. The Group's customer base may include consumers who are not qualifying for general purpose consumer loans or credit cards and consumers who are expanding their existing credit with other lenders. The Group prices its finance products taking into account the estimated risk level of its customers. Consequently, an accurate assessment of creditworthiness is key to setting the right price and maintain profitability. Further, there is a risk that the Group's credit policies and scoring procedure may prove insufficient or that the evaluation rendered through the procedure may prove incorrect. This could be due to factors such as internal failure in relation to risk management or that the Group's third party suppliers of the technical platforms experience business interruption or other technical failure. This, in turn, could cause faulty or insufficient assessments of creditworthiness. If any estimates in relation to customers' creditworthiness prove incorrect, customer default rates may increase, or the product be incorrectly priced, which would increase the Group's loan losses and in turn decrease net income, and negatively affect the Group's financial position.

In addition, and as set out under risk factors "*Credit risk related to unsecured lending*" and "*Risks relating to dependence of debt collectors and partners*", the Group sells distressed loans to debt collection agencies, and there is a risk that the Group may lack attractive disposal options for non-performing loans in the future. An increase in the ratio of impairments on assets to revenues as a result of incorrect assessments of consumer creditworthiness could materially adversely affect the Group's financial, economic and liquidity condition.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks relating to carrying out operations in a highly competitive market

The Group faces a high level of competition in all countries where it operates. In some countries there are well-established and sophisticated competitors, as well as niche banks and companies that have a particularly prominent competitive position in relation to certain groups of products and services. There is a wide range of companies targeting the same markets as the Group, including various smaller, locally operated companies in addition to larger traditional consumer banks. The Group also competes with other forms of short-term financing operators, such as peer-to-peer loans and other credit cards. While the Group offers consumer loans in a certain range, being on average approximately SEK 74,000 per customer as of 30 September 2025, certain of the Group's competitors may not apply loan amount restrictions or may offer larger loan amounts than offered by the Group. There is a risk that the Group's narrow targeting of customers and loan volumes makes the Group's products and services less competitive. Competition related risks are particularly high in mature markets with high market saturation and notably, for example the Nordic loan portfolio in the Consumer Lending segment accounts for approximately 63 per cent. of the total segment loan portfolio as of 30 September 2025. Intensive competition has in the past, and may in the future, push prices downwards which could erode profit margins and thereby net income.

There is a risk that the Group's business segments become subject to even more competition as the industry consolidates. Some of the Group's competitors may have larger and more established customer bases and substantially greater financial, marketing and other resources than the Group currently has. As a result, the Group could lose market shares to such competitors and revenues could decline, adversely affecting the Group's ability to generate sufficient cash flow to fund expansion of its operations. This, in turn, would have a material adverse effect on the Group's business, results of operation, financial condition and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks related to reputational damage and public perception of the consumer market

Consumer protection bodies, consumer advocacy groups, media reporting, and several European Union and international regulators in the markets where the Group operates, have initiated and advocated action to prohibit or restrict consumer lending and consumer sales. Such efforts have in particular focused on lenders that target

customers who have short-term liquidity needs and, in many cases, low levels of personal savings and income, and lenders charging consumers imputed interest rates and fees, which, on an annualised basis, are significantly higher than those charged by credit card issuers or banks to more creditworthy consumers. The Group does not target such customers, but there is a risk that the Group could be adversely affected by negative publicity associated with such business operators targeted by consumer protection bodies, consumer advocacy groups or regulatory authorities, even if such companies are not affiliated or associated with the Group or its business. There is also a risk that future restrictive measures are designed to target the activities carried out by the Group, which could force the Group to make changes in its business model. Furthermore, negative publicity may increase the number of customer complaints directed at the Group. Handling of such complaints require time and resources, all of which would increase costs.

Adverse media reporting or increased regulatory pressure as described above could consequently adversely affect the general public's perception of the Group's business, products which could cause customers to abandon the Group for the benefit of competitors. Reputational damage could impair the Group's access to capital markets or external financing, as the case may be, by way of affecting the perception by any future external creditors or investors in the Group.

Should any of the above risks materialise, it could have an adverse effect on the Group's business and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risk relating to dependency on IT infrastructure

The Group depends on information technology ("IT") and uses its IT systems for internal purposes, such as for credit scoring, as well as externally, in relation to its suppliers and customers. There is a risk that prolonged network failure or server downtime, IT attacks such as malware or ransomware attacks or other disruptions or failures in the Group's IT systems could occur, which would have a negative impact on the Group's operations, including its product distribution. Failure in the Group's IT systems could cause transaction and scoring errors as well as loss of customers and sales and business opportunities. In addition, there is a risk that the aforementioned IT failures cause unauthorised disclosure of confidential customer information, which would result in customer or counterparty claims, administrative fines and reporting obligations under applicable data protection laws as well as reputational damage. Additionally, further escalation of the conflict in Ukraine could increase the threat of cyber-attacks, for example aimed at critical infrastructure (see further risk factor "*Risks relating to disruptions in the global credit markets and economy*" above). If the Group is subject to a cyber-attack, its systems may be subject to down-time in an effort to prevent a security breach. The risk of IT disruption also includes multiple partners as the Group's IT systems are distributed among different premises, cloud services, system vendors and internet connections. Should any of the above risks materialise, it would have a negative effect on the Group's business and results of operation.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Management risks

Risk relating to dependency on key employees

The Group's success depends on its employees, in particular key management personnel. The Group is especially dependent on the expert knowledge of its current senior management, many who have several years' experience within the Group. Familiarity with internal processes and operational expertise in relation to the Group's business are key factors for the efficiency of the Group's operation. Furthermore, the Group's key employees within risk management and compliance are crucial in order for the Group to comply with the complex regulatory environment to which it is subject.

If persons in the senior management, any key or critical employees would leave the Group, the Group might be unable to hire replacement employees with sufficient level of familiarity with the Group's internal processes and operational expertise. There is also a risk that any measures applied by the Group to motivate or retain its personnel are not sufficient to retain key employees. Should the above risks materialise, the Group may be unable to pursue its business operations as planned which would have a material adverse effect on its future business and financial position.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Financial risks

Potential lack of liquidity and sufficient cash inflows

The Group's growth depends on cash flow from its customer deposits, being the main source of liquidity for the Group. As of 30 September 2025, deposits from the public amounted to approximately SEK 23,423 million. Approximately 49 per cent. of the total deposits from the public were deposited on accounts with a fixed term meaning *inter alia* that a charge is levied upon withdrawals and that the deposits have been tied to current interest rate levels for a certain time period (minimum one year and maximum five years).

As of the date hereof, the Group offers deposit products in Germany, Norway, Sweden, Finland, Spain, Ireland and the Netherlands whereof Germany accounts for approximately 70 per cent. of the Group's total deposits. The Group's offering of deposit products is to a large extent influenced by monetary policy implemented by European central banks and prevailing levels of repo rents. The Group's deposit products may, from time to time, appear as a less attractive investment option for consumers seeking higher returns than the Group's deposit products can deliver. This could in turn lead to that customers turn to other investment or savings opportunities with more favourable returns leading to loss of customers and thereby liquidity.

Except for the fixed rate savings accounts (for which a withdrawal charge is levied, as described above), no limits are applied on customers' withdrawals of deposited money. As such, the Group is at risk of ending up in a liquidity crisis in case of a general "bank run", where the customer creditors with short notice withdraw their deposits. Such "bank run" could be due to several factors, for instance to a rapid increase of consumers' liquidity needs in times of financial uncertainty. The Group maintains buffers in compliance with regulatory requirements, but upon a financial crisis, there is a risk that the general financial conditions for consumers deteriorate rapidly, which could cause a significant amount of consumers, also being the Group's debtors, ending up in financial difficulties simultaneously. The Group may be required to take measures to conserve cash until the markets stabilise or until alternative credit arrangements or other funding to cover the Group's business needs becomes available on affordable terms. Although amounts at the deposit accounts offered by the Group are protected under relevant regulations on deposit guarantees in the relevant jurisdictions in which the Group operates (for example corresponding to an amount of up to EUR 100,000 under European Union financial regulation and NOK 2,000,000 under Norwegian law) there is a risk that negative publicity regarding the Group or its industry, a deterioration of general economic conditions, new government-issued budgetary restriction or regulatory changes with regard to the maximum compensation amount or otherwise could cause a mass withdrawal event in the future. This taken together with the risk that the Group may fail to attract new deposit customers to replace withdrawing customers, could materially and adversely affect the Group's possibility to provide loans to the public or sustain growth in such operations. Consequently, a limited availability of funds on the market combined with rising lending costs, would adversely affect the Group's growth in both existing and new markets and the Group's business and ultimately its results of operation and financial condition would be materially adversely affected.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *high*.

Risks related to fluctuation in exchange rates

The Group operates internationally and is therefore subject to changes in foreign currency exchange rates, which implies both translation risk and transaction risk. Translation risk arises when the Group has holdings in foreign operations, the net assets of which are exposed to currency risk when translated into SEK in the Group's financial statements. As the Group has subsidiaries and branches in other countries than Sweden and accepts deposits and provides loans in other currencies than SEK, the Group is exposed to such risks. Transaction risk refers to exchange rate risks arising from the Group's foreign currency denominated positions in financial instruments and arises when future business transactions or recognised assets or liabilities are expressed in a currency other than the Issuer's functional currency. Translation risk is hedged using currency forward contracts as well as actual deposits and borrowings from the public as hedging instruments. The Group also use currency forward contracts to hedge transaction risk. The swap contracts used by the Group normally have a maturity of between 1–12 months and is entered into for Euro (EUR), Norwegian Krona (NOK), Danish Krone (DKK), Polish Złoty (PLN), Great British Pound (GBP) and United States Dollar (USD). Such forward contracts are necessary for the Group to obtain necessary currency for its product offerings in other markets that do not use these currencies.

There is a risk that any hedging techniques used are not sufficient to cover losses arising from currency exposure risks. Furthermore, as the Group uses its customer deposits to fulfil liquidity requirements there is a risk that the amount of customer deposits in a different currency than the Group's functional currency due to exchange losses, will not adequately correspond to liquidity needs.

Exchange rates fluctuate significantly, from time to time, and as of 31 December 2024, the sensitivity analysis provides, for example, that if SEK would fluctuate with 10 per cent. against EUR (all other variables being constant), the translated profit before tax at 31 December 2024 would have been approximately SEK 0.4 million lower or higher. Consequently, significant foreign exchange fluctuations against EUR, NOK, DKK, PLN, GBP and USD, especially in SEK, could adversely affect the Group's financial position.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Legal and regulatory risks

Dependency on license to conduct banking business

Being authorised to conduct banking business, including payment services, in Sweden, the Issuer and its Swedish subsidiary TF Bank Nordic AB are supervised by the Swedish Financial Supervisory Authority (Sw. *Finansinspektionen*) (the "SFSA"). The SFSA conducts its supervision in accordance with the applicable regulatory framework, and such supervision may include comprehensive inquiries and investigations and could ultimately cause the SFSA to intervene. As a result of intervention, the SFSA may issue injunctions, restrictions, official remarks and warnings, but may also withdraw the operating license. Certain measures can also be taken in combination with the issuance of punitive fines. The SFSA also has access to certain other remedy options, including the dismissal of a board member or managing director of a company. Furthermore, criminal liability may arise in relation to failure to comply with market abuse regulations or for tipping off an Issuer under SFSA authority as to a potential or actual investigation.

The Group is dependent on its banking license with the SFSA in order to carry out its business. Such license, even if necessary, also increases customer confidence, provides reputational benefits, gives access to pertinent databases to further enhance the Group's current scoring models and funding options linked to the ability to accept deposits to support profit growth. Further, in January 2023, the SFSA gave the Group permission to use the Alternative Standardised Approach to calculate the capital requirement for operational risk, resulting in a strengthened financial situation of the Group. In case of regulatory breach, there is a risk that the banking license is restricted or even withdrawn by the SFSA. If the banking license would be withdrawn, it would jeopardize the Group's entire business and existence, as it may be required to cease a significant part or all of its current operations. Other

measures taken or imposed by the SFSA could also cause significant reputational risk, which could harm the Group's business, financial condition and results of operations.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *high*.

Regulatory requirements in the banking and financing sector

The European banking regulatory framework is complex and applies in a partly harmonised manner in relation to the EU member states. As of the date hereof, the Group operates in Sweden, Finland, Norway, Denmark, Estonia, Latvia, Lithuania, Poland, Germany, Austria, Spain, Italy, Ireland and the Netherlands through *inter alia* branches and cross-border banking. As the Group conducts business in the banking and financial sector in several European jurisdictions, it is subject to a varying degree of local implementation of the EU banking regulatory framework as well as to other local requirements, such as regulation issued by the relevant supervisory authorities or general legal regulations applicable in relation to companies such as the Group's subsidiaries and branches. Such legal requirements include, among other things, license requirements, interest rate regulations, and general consumer protection legislation, such as in relation to entrance into distance contracts. The diversity of applicable legal requirements results in legal and regulatory risks. In order to be compliant with rules and regulations to which the Group is subject, the Group depends on its continuous assessment of applicable legislation and its impact on the Group's operations. Should the Group fail in its compliance, it could result in claims from counterparties as well as administrative action and/or fines. Regulatory breaches could also result in significant reputational harm. Where the Group seeks to expand its operations into new segments and geographies, there is a risk that the Group fails to address new or additional legal requirements in a timely or accurate manner. Legal requirements for initiating banking business may differ significantly across different jurisdictions, for instance with respect to license requirements. Failure to comply with local legal requirements may have a significant material adverse effect on the Group's business, reputation and future prospects. Such failure may also result in unforeseen or additional costs, which would adversely affect the Group's results of operation.

The Issuer is subject to capital adequacy regulations, pursuant to which regulated entities shall establish a comprehensive and risk-sensitive legal framework and ensure adequate risk management in order to maintain certain levels of capital and liquidity. The framework legislation of the EU Capital Requirements Directive 2013/36/EU (as amended by the EU Directive 2019/878 and the EU Directive 2014/1619) and the EU Capital Requirements Regulation No 575/2013 (as amended by the EU Regulation 2019/876 and the EU Regulation 2024/1623), is supplemented by a range of EU and local legislation as well as several regulations issued by local competent supervisory authorities. Adherence to such regulatory requirements may force the Issuer to issue additional capital instruments as well as restrict its operations in order to maintain any pre-defined ratios. There is a risk that such means of obtaining capital are unavailable when needed, on satisfactory terms or at all, which could put the Issuer at risk of being in breach with capital adequacy requirements. Failure to comply with such requirements could lead to the SFSA taking restrictive measures or issuing fines, which in turn would have a material adverse effect on the Group's ability to conduct its business and would adversely affect the Group's financial position and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Money laundering and terrorist financing

The potential risks that a financial business operators' businesses are used for money laundering or terrorist financing purposes have attracted significant attention and media coverage over the past decade. The applicable legal framework has become stricter and several supervisory authorities have devoted significant resources towards investigation of financial entities' compliance and work with anti-money laundering ("AML") and counter-terrorist financing ("CTF") regulations. The area for compliance with AML and CTF regulations received particular attention in 2018 and 2019 due to several large incidents within the banking sector being revealed. The

Group is subject to Swedish AML and CTF act including regulations issued by the SFSA, in its regulated business operators, which includes the operations carried out through branches. The Group is obligated to implement comprehensive internal measures for customer due diligence, monitoring of customers and transactions as well as reporting of suspicious transactions. The requirements are detailed and the Group allocates substantial resources in order to comply with the external requirements as well as to maintain internal routines and guidelines for managing day-to-day operations. There is a risk that the Group's procedures, internal control measures and guidelines to comply with AML and CTF requirements are insufficient or inadequate. There is also a risk that new or increased requirements will affect or restrict the Group's operations, or require the Group to further adapt its existing practices and procedures and allocate additional resources to manage compliance.

Due to the increased monitoring activities of the SFSA and other competent authorities within the EU during the past years, the compliance risk in relation to AML and CTF risk has been significantly enhanced, and breaches of applicable regulations could result in measures including comprehensive investigations, remarks or warnings and/or significant administrative fines imposed by the SFSA or other competent authorities, as the case may be. This could in turn result in substantial and potentially irreparable damage to the reputation of the Group, which would have a material adverse effect on the Group's business, results of operations and financial position.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Legally permissible interest rates for consumer loans

The Group is currently subject to regulatory restrictions on lending rates in Sweden, Finland, Latvia, Estonia, Lithuania, Spain, Italy and Poland within the Group's main business segments, which limits the amount of interest and/or fees that may be charged for certain financial products, including on loans provided to consumers. Such requirements may be construed as pre-determined interest rate caps. In certain jurisdictions, however, any interest rate that is manifestly higher than prevailing market rates could be deemed usurious and rendered void or unenforceable. Consequently, the Group must continuously monitor current market interest rates, and, if it is unable to do so successfully, any substantial deviations from such prevailing rates could result in the Group being unable to enforce its interest claims or recover the full amount of interest charges. Should such regulatory requirements increase or should new requirements be introduced in other jurisdictions in which the Group operates, the Group may have to alter the terms upon which it offers some or all of its consumer lending and other financial products. Such changes could lead to decreased profitability, which ultimately would have a negative effect on the Group's business, financial condition and results of operations.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Data protection and privacy laws

Since most of the Group's customers and counterparties are natural persons, the Group processes large amounts of personal data for commercial purposes, for example in the automated process of determining a potential applicant's credit profile. The Group's ability to collect and use personal data is however affected, and to some extent restricted, by the provisions set out in Regulation (EU) 2016/679, the General Data Protection Regulation ("GDPR") and other privacy laws. The Group has historically allocated substantial resources for compliance with the requirements under the GDPR, by way of establishing and implementing a new system for personal data processing and actions needed to ensure compliance with the GDPR. Investors should note that even though the Group uses best efforts to process personal data in accordance with the GDPR, the Group processes a significant amount of personal data, including potentially sensitive data. If the Group, or any of its partners, were to suffer a data breach, e.g. due to cyber-attacks such as malware or ransomware attacks or other disruptions or failures in the Group's IT systems, there is a risk that a substantial data protection incident could occur. Furthermore, the process of automatically determining an applicant's credit profile and profiling, which is a key business area for the Group, is subject to strict regulatory requirements, including an obligation for the group to (i) inform that the decision is

automated, (ii) provide an opportunity to have the decision reviewed by a natural person and (iii) provide an opportunity to challenge the decision. Whereas the Group deems that it has legal basis for its automated decision making and profiling and that its data processing is compliant with the GDPR, the nature of the business entails high demands on GDPR compliance and it cannot be guaranteed that the supervisory authorities will always agree with the Group's assessments. Failure to comply with the GDPR could result in fines amounting to a maximum of EUR 20,000,000 or 4 per cent. of the Group's global turnover (whichever is higher). Failure to comply with the requirements could also result in private claims from the relevant registered individual. A failure by the Group to comply with the requirements under the GDPR may thus have a material adverse impact on the Group's business and results of operation, as well as result in reputational damage, especially due to the magnitude of the Group's processing of personal data. In addition, there is a risk that relevant competent authorities gain increased supervisory powers and that more comprehensive administrative measures may be taken in the future, which in turn could adversely affect the Group's business and divert management's attention from the day-to-day operations.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

RISK FACTORS SPECIFIC AND MATERIAL TO THE BONDS

Risks related to the nature of the Bonds

The Issuer's obligations under the Bonds are subordinated

The Bonds constitute unsecured debt obligations of the Issuer. Should the Issuer be subject to any foreclosure, dissolution, winding-up, liquidation, bankruptcy or other insolvency proceedings, the rights of the holders of Bonds ("**Bondholders**") are subordinated in right of payment to the claims of depositors and other unsubordinated creditors of the Issuer as well as any subordinated creditors of the Issuer whose rights are expressed to rank in priority to the Bondholders by statute or regulation.

The Bonds rank *pari passu* with all other liabilities or capital instruments which constitute tier 2 capital (Sw. *supplementärkapital*) of the Issuer and other liabilities or capital instruments of the Issuer that rank or are expressed to rank equally with the Bonds. The Bonds however rank senior to any additional tier 1 capital (Sw. *primärkapitaltillskott*) or common equity tier 1 instruments (Sw. *kärnprimärkapitalinstrument*) of the Issuer.

In the event of a liquidation or bankruptcy of the Issuer, the Issuer will be required to pay its depositors and its unsubordinated creditors in full before it can make any payments on the Bonds, where after the Bondholders normally would receive payment *pro rata* with other unsecured creditors. Consequently, the Issuer may not have enough assets remaining after payments to senior ranking creditors have been effected, in order to pay the amounts due under the Bonds. No Bondholder who is indebted to the Issuer shall be entitled to exercise any right to set-off or counterclaim against moneys owed by Issuer in respect of the Bonds held by such Bondholder. As a result, there is a risk that the Bondholders will lose some or all of their investments in the Bonds.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Credit risk associated with the Bonds

Investors in the Bonds carry a credit risk towards the Group. Bondholders' ability to receive payment under the terms and conditions for the Bonds (the "**Terms and Conditions**") is therefore dependent upon the Issuer's and the Group's ability and willingness to meet its payment obligations, which in turn is dependent upon the performance of the Group's operations and its financial position. The Group's financial position is affected by several factors of which some have been mentioned above.

There is a risk that an increased credit risk will cause the market to charge the Bonds a higher risk premium, which will have a significant negative effect on the value of the Bonds. Another aspect of the credit risk is that there is a

risk that a deteriorating financial position of the Group will reduce the Group's possibility to receive debt financing at the time of the maturity of the Bonds.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Interest rate risk

The value of the Bonds depends on several factors, one of the most significant being the level of market interest over time. Potential investors in the Bonds are hence dependent on a favourable and stable general market interest rate over time in order to sustain profitability in respect of its investment. The Bonds bear interest at a floating rate of 3 month STIBOR plus a margin and the interest rate of the Bonds is determined two business days prior to the first day of each respective interest period. Hence, the interest rate is to a certain extent adjusted for changes in the level of the general interest rate.

The determining interest rate benchmarks, such as STIBOR has been subject to regulatory changes such as the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds). There is a risk that STIBOR will be discontinued, or that alternative benchmark rates will dominate market practice, leading to uncertainties in relation to the interest rate payable in relation to the Bonds. Increased or altered regulatory requirements and risks associated with any replacement of STIBOR, especially taking into account the long maturity period of the Bonds, involve inherent risks as the effects cannot be fully assessed at this point in time which could cause volatility in STIBOR and result in an adverse negative effect on an investment in the Bonds.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Liquidity risks and listing of the Bonds

Pursuant to the Terms and Conditions the Issuer must use its best effort to list the Bonds on the corporate bond list of Nasdaq Stockholm, or if such admission to trading is not possible to obtain or maintain, on another regulated market within 60 days after the Issue Date and with an intention to complete such listing within 30 days after the Issue Date. However, there is a risk that the Bonds will not be admitted to trading in the aforementioned time frame or at all. If the Issuer fails to procure listing in time, investors holding Bonds on an investment savings account (Sv. *ISK* or *IS-konto*) will no longer be able to hold the Bonds on such account, thus affecting such investor's tax situation.

Further, even if the Bonds are admitted to trading on a regulated market, active trading in the Bonds does not always occur and hence there is a risk that a liquid market for trading in the Bonds will not form or will not be maintained, even if the Bonds are listed. This risk is particularly prominent in times of volatility at the capital markets. As a result, the Bondholders may be unable to sell their Bonds when desired or at a favourable price level that allows for a profit comparable to similar investments traded on an active and functioning secondary market. Lack of liquidity in the market may have a negative impact on the market value of the Bonds.

Furthermore, the nominal value of the Bonds may not be indicative of the market price of the Bonds if the Bonds are admitted for trading on Nasdaq Stockholm, as the Bonds may trade below their nominal value (for instance, to allow for the market's perception of a need for an increased risk premium).

It should also be noted that during any given period of time it may be difficult or impossible to sell the Bonds (at all or at reasonable terms) due to, for example, severe price fluctuations, close-down of the relevant market or trade restrictions imposed on the market.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Call options are subject to the prior consent of the SFSA

The Issuer has the option to redeem the Bonds as from the first call date, being the date falling five years for the Bonds after the issue date of the Bonds. However, in order to exercise such a call option, the Issuer must obtain the prior consent of the SFSA. There is a risk that such redemption cannot be carried out at the time when needed or that would be favourable for the Group, which could force the Issuer to sustain an unfavourable financial position for a certain period of time prior to that consent can be obtained.

The Bondholders have no rights to call for the redemption of the Bonds and there is a risk that such a call will not be exercised by the Issuer. The SFSA must agree to permit such a call, based upon its evaluation of the regulatory capital position of the Issuer and certain other factors at the relevant time. There is a risk that the SFSA will not permit such a call or that the Issuer will not exercise such a call. Consequently, there is a risk that Bondholders would be required to bear the financial risks of an investment in the Bonds for a period of time in excess of the minimum period.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

No limitation on issuing debt and granting security over assets

The Terms and Conditions do not restrict the Issuer from incurring additional financial indebtedness ranking senior of, or *pari passu* with, and do not restrict the Issuer from providing security for such debt. If security is granted, the Bondholders will, in the event of bankruptcy, re-organisation or winding-up of the Issuer, be subordinated in right of payment out of the assets being subject to security. Any enforcement action taken by such secured creditor in relation to secured assets in the Group could also have a material adverse effect on the Group's assets and operations and, ultimately, the Issuer's payment ability under the Bonds. Furthermore, the issuance of additional debt by the Issuer may reduce the amount recoverable by the Bondholders in the event of bankruptcy, re-organisation or winding-up of the Issuer.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks related to the Resolution act and BRRD

Write-down and conversion and bail-in

The Group is subject to the Swedish Resolution Act 2015 (Sw. *Lag (2015:1016) om resolution*) (the "**Resolution Act**"). The Resolution Act implements Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms ("**BRRD**") into Swedish law. The Swedish National Debt Office (Sw. *Riksgäldskontoret*) (the "**NDO**") is granted significant powers in its capacity as competent resolution authority under the Resolution Act and BRRD to apply the resolution tools and exercise the resolution powers set forth in the Resolution Act. Such powers include the introduction of a statutory write-down and conversion power with respect to capital instruments and a "bail-in power," which will give the NDO the power to cancel or vary all or a portion of the principal amount of, or interest on, the term of and the interest payment dates of certain eligible liabilities including tier 1 and tier 2 capital instruments. Prior to resolution under the Resolution Act, the SFSA may require bail-in.

The bail-in power can be used to recapitalise an institution that is failing or about to fail, allowing authorities to restructure it through the resolution process and restore its viability after reorganisation and restructuring. The write-down and conversion power can be used to ensure that tier 1 capital and tier 2 capital instruments fully absorb losses at the point of non-viability of an institution and before any other resolution action is taken. The Resolution Act specifies the order in which the relevant bail-in tool should be applied, which order reflects the hierarchy of capital instruments under CRD IV and otherwise respecting the hierarchy of claims in an ordinary insolvency. In addition, the bail-in power contains a specific mechanism that aims at safeguarding that shareholders

and creditors do not receive a less favourable treatment than in ordinary insolvency proceedings. Even where a claim for compensation is established under this “no creditor worse off” safeguard, this will be determined on the basis of an independent valuation performed after the resolution action has been taken. It is unlikely that such compensation would be equivalent to the full loss incurred by the Bondholders in the resolution and there is a risk that such Bondholders will experience considerable delay in recovering any such compensation.

The Bonds constitute unsecured obligations of the Issuer and could be subject to the bail-in power. The determination of whether all or only a part of the principal amount of the Bonds will be subject to bail-in is inherently unpredictable. There is a risk that if the bail-in tool would be applied, it could result in the cancellation of all or a portion of the principal amount of, or interest on, the Bonds and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, the Bonds into ordinary shares or other securities of the Issuer or another person, including by means of a variation to the terms of the Bonds (including their maturity date or interest rate) to give effect to such application of the bail-in tool.

Accordingly, potential Bondholders should consider the risk that the bail-in tool may be applied in such a manner as to result in Bondholders losing all or a part of the value of their investment in the Bonds or receiving different securities than the Bonds, which will be worth significantly less than the Bonds and which will have significantly fewer protections than those typically afforded to debt securities.

Moreover, the NDO may exercise its authority to apply the bail-in tool without providing any advance notice to the Bondholders. Bondholders may also have limited or no rights to challenge any decision of the NDO to exercise the bail-in power or to have that decision reviewed by a judicial or administrative process or otherwise.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Additional measures

In addition to the bail-in power and the statutory write-down and conversion power, the Resolution Act provides the NDO with broader powers to implement other resolution measures on a credit institution such as the Issuer, in the event of any distress, which may include (without limitation):

1. directing the sale of the bank, such as the Issuer, or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply;
2. transferring all or part of the business of the bank, such as the Issuer, to a “bridge institution” (a publicly controlled entity);
3. transferring the impaired or problem assets to an asset management vehicle to allow them to be managed and worked out over time;
4. replacing or substituting the bank, such as the Issuer, as obligor in respect of debt instruments;
5. modifying the terms of debt instruments, for instance the Bonds, (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments); and/or
6. discontinuing the listing and admission to trading of financial instruments, such as the Bonds.

The NDO will likely allow the use of financial public support only as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the bail-in tool and/or the statutory write-down and/or conversion powers.

The Resolution Act establishes a preference in the ordinary insolvency hierarchy, firstly, for insured depositors and, secondly, for all other deposits of individuals and micro, small and medium-sized enterprises held in EEA or non-EEA branches of an EEA credit institution. These preferred deposits will rank ahead of all other unsecured senior creditors of the Issuer, including the Bondholders, in the insolvency hierarchy. Furthermore, insured deposits are excluded from the scope of the bail-in powers.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Risks related to the Bondholders' rights and representation

There are limited acceleration events in relation to the Bonds

Pursuant to the Terms and Conditions, the right of the Bondholders to accelerate the Bonds are very limited. Prior to the Final Redemption Date (as defined in the Terms and Conditions), a Bondholder may only accelerate any future scheduled payment of Interest or principal under the Bonds in the event of liquidation (Sw. *likvidation*) or bankruptcy (Sw. *konkurs*) of the Issuer (each a “**Acceleration Event**”). Consequently, there is a risk that there are other events including events which have an adverse effect on the business, operations, assets, liabilities, conditions (financial or otherwise) or prospects of the Issuer, which will not give the Bondholders a right to accelerate the Bonds, and that may cause the market price of the bonds to decline. For instance, a payment default or an acceleration with respect to any other financial indebtedness of the Issuer or a change of control of the Issuer will not give the Bondholders a right to demand repayment of the Bonds.

Furthermore, the agent's right to represent bondholders in formal proceedings in Sweden (such as bankruptcies, company reorganisations or upon enforcement of security) has recently been questioned and there has been a case where a court has held that such right does not exist, meaning that the bondholders, through the agent, were unable to take actions against the issuer. Although the relevant case law on this subject is, as of now, non-precedential, if such judgments should continue to be upheld by the justice system and/or if the regulators should not intervene and include the agent's right to represent bondholders in relevant legislation, it may become more difficult for Bondholders to protect their rights under the terms of the Bonds in formal court proceedings.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *high*.

Risks related to the financial position of the Group

Ability to service debt

The Group's ability to service its debt under the Bonds will depend upon the Group's future financial and operating performance, which in turn depends on, several factors, some of which are described in this section. If the Group's operating income is not sufficient to service its current or future debt obligations, the Group will be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling assets, restructuring or refinancing its debt or seeking additional equity capital. There is a risk that the Group will not be able to affect any of these remedies on satisfactory terms, or at all. This would have a significant negative effect on the Group's operations, earnings, results and financial position.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

Refinancing risk

There is a risk that the Issuer will be required to refinance some or all of its outstanding debt, comprising of, among other things, its current outstanding tier 2 bonds as well as the Bonds, in order to be able to continue the operations of the Group. The Group may also need to access capital by way of issuing additional tier 1 instruments or other types of hybrid instruments. The Issuer's ability to successfully refinance its debt depends on, among other things, conditions at the capital markets in general and debt capital markets in particular, as well as the Group's financial condition at such time. The possibility to refinance debt is also dependent on the permission by the SFSA to utilise the call option under any outstanding bonds. There is a risk that the Issuer will not have access to financing on favourable terms, or at all at the time of such refinancing. Should the Issuer be unable to refinance its debt obligations on favourable terms, or at all, it would have a significant negative effect on the Group's business, financial position and result of operation and on the Bondholders' recovery under the Bonds.

The Issuer considers that the probability of the above risks occurring is *low*, and the potential negative impact if the risks would materialise, is *medium*.

The business is divided into three segments: Credit Cards, Ecommerce Solutions and Consumer Lending. The target group for all services is creditworthy individuals and the loan amounts are relatively small with short repayment terms.

The Group's business

The Groups main business consists of offering flexible payment and financing solutions through its three business segments, all of which utilises the Group's proprietary IT infrastructure, credit models and cross-selling opportunities. In the Credit Cards segment, the Group offers credit cards to creditworthy individuals. In the Ecommerce Solutions segment, the Group offers digital payment solutions, primarily in e-commerce, to

Lending operations in Spain and Italy have been established during 2024. Ecommerce Solutions

In the Ecommerce Solutions segment, TF Bank offers digital payment solutions primarily within e-commerce to creditworthy individuals. These solutions are offered under the Avarda brand in the Nordic region. The Bank is discontinuing its lending operations in Poland and the Baltics. At the end of the third quarter, the Nordic loan portfolio comprised 95 % of the segment and the remaining markets comprised 5 % combined.

Avarda as a brand was established in 2015, focusing on digital payment solutions in the Nordics. The goal is to offer payment solutions for online retailers who wish to build and strengthen their own brand throughout the entire purchasing journey, from checkout to payment. The payment solutions are offered for e-commerce and retail in the Nordic region. The Bank sees continued development opportunities in its operations in the Nordic region and has initiated a small-scale launch of credit offerings in Germany at the end of the fourth quarter of 2024.

Consumer Lending

In the segment Consumer Lending, unsecured consumer loans are provided to individuals deemed to be sufficiently creditworthy according to the Group's analysis and credit scores via its credit policies and software-based systems. The size of the loans depends on the geographic market, and as of 30 September 2025, the average loan amount per customer amounted to approximately SEK 74,000.

The credits offered through Consumer Lending are unsecured consumer loans, and the majority of the Group's customers apply for credit via internet through various intermediaries. The customers can also apply for credit using the Group's customer support service by calling or submitting a paper application. The customers' preferred way of lending funds has changed during the past years as internet and mobile bank services have gained popularity. This development is part of the rapidly growing internet-based services that were introduced at the end of the 1990's, and which has developed further since. As a consequence of the financial crisis in 2008 and 2009, more providers of payment services and lenders of short-term credits entered the market, adding to the development and growth of the market. The development accelerated further when several of the major bank institutions were forced to reduce their available credit volume for consumers or withdraw from specific markets. These developments have made internet-based bank solutions more common as well as making it simpler to apply for loans via internet. This is, according to the Company, a contributing factor to the growth and an important development for the customers.

The Nordic markets

As of 30 September 2025, the Nordic loan portfolio represents 63 per cent. of the Consumer Lending segment. The Nordic markets for consumer loans are characterised by credit information that is easy to access, a high share of credit intermediaries, and a well-functioning system for collection of unpaid debts.

Eastern and Central Europe

The Group has offered consumer lending in Estonia since 2006, in Poland since 2012, in Latvia since 2016, in Lithuania since 2018, and in Spain since 2022. As of 30 September 2025, the loan portfolio outside the Nordic markets represents 37 per cent. of the segment, the majority of which is in the Baltics. The Baltic countries have fast-growing credit markets with several established Nordic companies operating locally. Lending operations were launched in Germany during the second quarter of 2025. During the second half of the 2023, the Group decided to pause new lending in Spain.

Deposits

The Group offers savings products in Germany, Netherlands, Ireland, Finland, Norway, Spain and Sweden, which deposits constitute an important source of the Group's financing. Deposits from the public only occur in the household sector and 99 per cent. is covered by a deposit guarantee scheme. Deposits in Germany, Netherlands, Ireland, Norway, Spain and Sweden are payable on demand and on maturity whereas deposits made in Finland are payable only on demand.

Further, the directors of the board, the managing director and other officials of the Issuer and the Issuer's auditors and advisors may attend the Bondholders' Meeting. The Bondholders' Meeting may decide that further individuals may attend. 18. REPLACEMENT OF BASE RATE

18.1 General

18.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 18 shall at all times be made by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.

18.1.2 If a Base Rate Event has occurred, this Clause 18 shall take precedence over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

18.1.3 Notwithstanding any other provision in this Clause 18 (*Replacement of Base Rate*), no Successor Base Rate or Adjustment Spread (as applicable) will be adopted, and no other amendments to the Terms and Conditions will be made pursuant to this Clause 18 (*Replacement of Base Rate*), if, and to the extent that, in the determination of the Issuer, the same could

reasonably be expected to lead to a disqualification of the Bonds from Tier 2 Capital of the Issuer, or the Issuer Consolidated Situation, whether on a solo, group or consolidated basis.

18.2 Definitions

In this Clause 18:

“Adjustment Spread” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if paragraph (a) above is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“Base Rate Amendments” has the meaning set forth in Clause 18.3.4.

“Base Rate Event” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in paragraph (b) above; or

- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in paragraphs (b) to (e) above will occur within six (6) months.

“Base Rate Event Announcement” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“Independent Adviser” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“Relevant Nominating Body” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“Successor Base Rate” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph **Fel! Hittar inte referenskölla.**, such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply *mutatis mutandis* to such new Successor Base Rate.

18.3 **Determination of Base Rate, Adjustment Spread and Base Rate Amendments**

- 18.3.1 Without prejudice to Clause 18.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer’s expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 18.3.2.
- 18.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer’s expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating, and finally deciding the applicable Base Rate.
- 18.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 18.3.2, the Agent shall, if so decided at a Bondholders’ Meeting or by way of Written Procedure, on behalf of the Bondholders, be entitled to appoint an Independent Adviser (at the Issuer’s expense) for the purposes set forth in Clause 18.3.2.
- 18.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor

Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice (“**Base Rate Amendments**”).

- 18.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

18.4 **Interim measures**

- 18.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

- 18.4.2 For the avoidance of doubt, Clause 18.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 18. This will however not limit the application of Clause 18.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 18 have been taken, but without success.

18.5 **Notices etc.**

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders in accordance with Clause **Fel! Hittar inte referenskölla**. (*Notices and press releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

18.6 **Variation upon replacement of Base Rate**

- 18.6.1 No later than giving the Agent notice pursuant to Clause **Fel! Hittar inte referenskölla**., the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 18.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 18. The

Successor Base Rate the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.

18.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 18.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 18.

18.6.3 The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 18. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

18.7 **Limitation of liability for the Independent Adviser**

Any Independent Adviser appointed pursuant to Clause **Fel! Hittar inte referenskölla.** shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

19. **THE AGENT**

19.1 **Appointment of the Agent**

19.1.1 By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer. By acquiring Bonds, each subsequent Bondholder confirms such appointment and authorisation for the Agent to act on its behalf.

19.1.2 Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.

19.1.3 The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.

19.1.4 The Agent is entitled to fees for all its work in such capacity and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agency Agreement

and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.

- 19.1.5 The Agent may act as agent or trustee for several issues of securities or other loans issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

19.2 **Duties of the Agent**

- 19.2.1 The Agent shall represent the Bondholders in accordance with the Finance Documents.
- 19.2.2 When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 19.2.3 When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 19.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 19.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 19.2.6 The Issuer shall on demand by the Agent pay all reasonably incurred costs for external experts engaged by it:
- (a) after the occurrence of an Acceleration Event;
 - (b) for the purpose of investigating or considering:
 - (i) an event or circumstance which the Agent reasonably believes is or may lead to an Acceleration Event; or
 - (ii) a matter relating to the Issuer or the Finance Documents which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents (including for the purpose of deciding whether the conditions set out in Clause 17.1 are fulfilled);
 - (c) in connection with any Bondholders' Meeting or Written Procedure; or
 - (d) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents.

Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause **Fel! Hittar inte referenskölla**. (*Distribution of proceeds*).

- 19.2.7 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.
- 19.2.8 Other than as specifically set out in the Finance Documents, the Agent shall not be obliged to monitor:
- (a) whether any Acceleration Event has occurred;
 - (b) the financial condition of the Issuer and the Group;
 - (c) the performance, default or any breach by the Issuer or any other party of its obligations under the Finance Documents; or
 - (d) whether any other event specified in any Finance Document has occurred or is expected to occur.

Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.

- 19.2.9 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 19.2.9. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 19.2.10 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 19.2.11 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.
- 19.2.12 The Agent shall give a notice to the Bondholders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or if it refrains from acting for any reason described in Clause 19.2.11.
- 19.2.13 Upon the reasonable request by a Bondholder, the Agent shall promptly distribute to the Bondholders any information from such Bondholder which relates to the Bonds (at the discretion of the Agent). The Agent may require that the requesting Bondholder reimburses any costs or expenses incurred, or to be incurred, by the Agent in doing so (including a reasonable fee for the work of the Agent) before any such information is distributed. The Agent shall upon

request by a Bondholder disclose the identity of any other Bondholder who has consented to the Agent in doing so.

- 19.2.14 Subject to the restrictions of a non-disclosure agreement entered into by the Agent in connection with these Terms and Conditions, the Agent shall be entitled to disclose to the Bondholders any document, information, event or circumstance directly or indirectly relating to the Issuer or the Bonds. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Bondholders delay disclosure or refrain from disclosing certain information.

19.3 **Liability for the Agent**

- 19.3.1 The Agent may assume that the documentation and evidence delivered to it is accurate, legally valid, enforceable, correct, true and complete unless it has actual knowledge to the contrary, and the Agent does not have to verify or assess the contents of any such documentation or evidence. No documents or evidence delivered in accordance with the Finance Documents are reviewed by the Agent from a legal or commercial perspective of the Bondholders.
- 19.3.2 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 19.3.3 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 19.3.4 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 19.3.5 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- 19.3.6 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.

19.4 **Replacement of the Agent**

- 19.4.1 Subject to Clause **Fel! Hittar inte referenskölla.**, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- 19.4.2 Subject to Clause **Fel! Hittar inte referenskölla.**, if the Agent is insolvent or becomes subject to bankruptcy proceedings, the Agent shall be deemed to resign as Agent and the Issuer shall

within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

- 19.4.3 A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- 19.4.4 If the Bondholders have not appointed a successor Agent within ninety (90) days after:
- (a) the earlier of the notice of resignation was given or the resignation otherwise took place; or
 - (b) the Agent was dismissed through a decision by the Bondholders,
- the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of market loans.
- 19.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 19.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of:
- (a) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent; and
 - (b) the period pursuant to paragraph (b) of Clause 19.4.4 having lapsed.
- 19.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 19.4.8 In the event that there is a change of the Agent in accordance with this Clause **Fel! Hittar inte referenskälla.**, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree

otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

20. THE ISSUING AGENT

- 20.1 The Issuer appoints the Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Bonds. The Issuing Agent shall be a commercial bank or securities institution approved by the CSD.
- 20.2 The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.
- 20.3 The Issuer shall ensure that the Issuing Agent enters into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Issuing Agent, as may be necessary in order for the Issuing Agent to carry out its duties relating to the Bonds.
- 20.4 The Issuing Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Issuing Agent shall never be responsible for indirect or consequential loss.

21. THE CSD

- 21.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD Regulations and the other regulations applicable to the Bonds.
- 21.2 The CSD may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Bondholder or the admission to trading of the Bonds on the corporate bond list of Nasdaq Stockholm (or any other Regulated Market, as applicable). The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Swedish Central Securities Depositories and Financial Instruments Accounts Act (*Sw. lag (1998:1479) om värdepapperscentraler och kontoföring av finansiella instrument*).

22. NO DIRECT ACTIONS BY BONDHOLDERS

- 22.1 A Bondholder may not take any action or legal steps whatsoever against any Group Company to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (*Sw. företagsrekonstruktion*) or bankruptcy (*Sw. konkurs*) (or their equivalents in any other

jurisdiction) of any Group Company in relation to any of the obligations or liabilities of such Group Company under the Finance Documents. Such steps may only be taken by the Agent.

- 22.2 Clause 22.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 19.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 19.2.11, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 19.2.12 before a Bondholder may take any action referred to in Clause 22.1.
- 22.3 The provisions of Clause 21.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due by the Issuer to some but not all Bondholders.

23. TIME-BAR

- 23.1 The right to receive repayment of the principal of the Bonds shall be time-barred and become void ten (10) years from the relevant Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been time-barred and has become void.
- 23.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (Sw. *preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to the right to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the time-bar period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

- 24.1.1 Any notice or other communication to be made under or in connection with these Terms and Conditions:

A notice to the Bondholders shall also be published on the websites of the Issuer and the Agent.

24.1.2 Any notice or other communication made by one Person to another under or in connection with the Finance Documents shall be sent by way of courier, personal delivery or letter (or, if between the Agent and the Issuer, by e-mail) and will only be effective:

24.1.3 Failure to send a notice or other communication to a Bondholder or any defect in it shall not affect its sufficiency with respect to other Bondholders.

24.2 **Press releases**

24.2.1 Any notice that the Issuer or the Agent shall send to the Bondholders pursuant to Clause **Fel! Hittar inte referenskölla**. (*Early voluntary total redemption (call option)*), Clause **Fel! 24.2.2 In addition to Clause 24.2.1, if any information relating to the Bonds, the Issuer or the Group contained in a notice that the Agent may send to the Bondholders under these Terms and Conditions has not already been made public by way of a press release, the Agent shall before it sends such information to the Bondholders give the Issuer the opportunity to issue a press release containing such information. If the Issuer does not promptly issue a press release and the Agent considers it necessary to issue a press release containing such information before it can lawfully send a notice containing such information to the Bondholders, the Agent shall be entitled to issue such press release.

25. **FORCE MAJEURE**

25.1 Neither the Agent nor the Issuing Agent shall be held responsible for any damage arising out of any legal enactment, or any measure taken by a public authority, or war, strike, lockout, boycott, blockade, natural disaster, insurrection, civil commotion, terrorism or any other similar

circumstance (a “**Force Majeure Event**”). The reservation in respect of strikes, lockouts, boycotts and blockades applies even if the Agent or the Issuing Agent itself takes such measures, or is subject to such measures.

- 25.2 Should a Force Majeure Event arise which prevents the Agent or the Issuing Agent from taking any action required to comply with these Terms and Conditions, such action may be postponed until the obstacle has been removed.
- 25.3 The provisions in this Clause **Fel! Hittar inte referenskölla.** apply unless they are inconsistent with the provisions of the Financial Instruments Accounts Act which provisions shall take precedence.

26. GOVERNING LAW AND JURISDICTION

- 26.1 These Terms and Conditions, and any non-contractual obligations arising out of or in connection therewith, shall be governed by and construed in accordance with the laws of Sweden.
 - 26.2 Any dispute or claim arising in relation to these Terms and Conditions shall, subject to Clause 26.3, be determined by Swedish courts and the City Court of Stockholm (Sw. *Stockholms tingsrätt*) shall be the court of first instance.
 - 26.3 The submission to the jurisdiction of the Swedish courts shall not limit the right of the Agent (or the Bondholders, as applicable) to take proceedings against the Issuer in any court which may otherwise exercise jurisdiction over the Issuer or any of its assets.
